- TPs are voluntary associated subjects from R&D institutions, universities, industry and services (both large companies and SMEs). Bridging the R&D activities with industry with a full feedback for both sides should lead to a better knowledge of needs and innovations
- The main goal of TPs is creation and preparation of visions and strategic documents (SRA and IAP) as well as foresights studies for respective economical sector and development to enhance the sector's competitiveness. They are also active in necessary advocacy approaches
- Activities and targets of the CZ TPs are described in a common Memorandum of Cooperation
- The CZ TPs are supported by EU funds via CZ Ministry of Industry&Trade (OPPIK), however looking for other possibilities and projects
